Synergy 2017 Report

Software Developers DTU organised Synergy 2017 under the banner of Techfest, DTU 2017 during 10-12 February 2017. Two events were organised in Synergy 2017 related to competitive programming and software development. The events witnessed over 700+ participation altogether.

1. **hackDTU** – hackDTU became North India's Largest Student held hackathon when it witnessed the presence of 160+ teams and over 450+ participants competing with each other during this 24 hr long challenge to build the best product under time constraints. The prize for developing the best product was sponsored by Cisco and other sponsors distributed their T-Shirts and Stickers to the participants. The winning team was lead by Kilari Teja from DIT college.

2. **Code War** – Code War witnessed a participation of 250+ competitive programmers from all over India. It was a knockout tournament styled programming competition which was challenging in terms of programming questions. Prizes worth 50,000 were given to the participants. Ritesh Singla from DTU won the first prize in this competition.
