

## **SESSION REPORT**

**(AY-2017-18)**

The Computer Society of India was established in 1965 and has now grown to be the national body representing computer professionals. CSI - DTU, its college arm, is one of the leading technical societies of DTU. In academic year 2017-18, IDG's (Interest Development Group) were created where sessions were held on various topics starting from the scrap to expertise level. A lot of technical and non-technical events were also organized.

### **ORIENTATION**

An interactive orientation session was organized by the society in the month of August for the freshers where discussions were held about everything including college life, internships and placements.

## AVANTGARDE
