It was the flagship event organized by Kalakriti on 11th October 2017 in OAT, DTU with a concept never seen before. The event was open to anyone and everyone and allowed the participants to express themselves in the way they want. The purpose of the event was to bring out the hidden artist in everyone and make people understandthe concept of Art as a sourceofpleasure rather than a skill only professionals can exercise.

The objective of the event is to make everyone remember their childhood when we used to draw and build not because we were artists but because we enjoyed to. Art being the best ways to express oneself and "Abhivyakti" was open to give everyone a chance to do the same The event witnessed a participation of over 700 people from all age groups including school children from Navjyoti Foundation NGO, college students from more than 30 colleges all over the capital and students as well as teachers from DTU faculty

this competition turned out to be a great opportunity for Kalakriti to improve relations with other colleges' art societies and in openingavenues for future collaborations and events. Students from Navjyoti India Foundation were invited to participate in the competition and all the materials were provided to them.
