

Department of Environmental Science and Engineering Delhi Technological University

Environmental Cleanliness and Swachta Awareness Programme

Department of Environmental Science and Engineering, DTU, and Green Institute of Research and Development (GIRD), jointly organised an event “Environmental Cleanliness and Swachta Awareness Programme” on 29th August, 2025 from 11:00 AM onwards in the Department. The event was started with a rally march by faculties, research scholars, staff members, school children and students of the department which started from the porch of the department, moved through the residential complex of DTU and ended at the children’s park of DTU residential complex. The faculties, research scholars, students and staff members were carrying placards and banners in their hands to spread the awareness about the clean environment. Various slogans related to cleanliness were also shouted. After reaching the children’s park, the pledge was also taken by each individual present during the event lead by Dr. Geeta Singh, Head of Department, Department of Environmental Science and Engineering. The event was followed by a plantation drive where Tulsi and Aloe Vera were planted in DTU’s children park by the faculty, research scholars, students and staff members of the department and GIRD members. The plantation drive ended with an awareness speech by the organising team. The faculty, research scholars, students and staff members were provided with the refreshments and then taken to Seminar Hall of the department where another awareness talk was given by Dr. Anil Kumar, Director, Perfact Group. The awareness talk enriched the school students and other audiences present in the hall. The event was followed by a drawing competition for the school students which were given theme of saving the mother earth. All the students were highly motivated and took participation. The best three drawings were given awarded as decided by the team of jury. The event was attended by approximately 60 individuals comprising of faculties, research scholars, staff members and students of both department and school. The event was a success towards spreading awareness and importance about the cleanliness and hygiene.
