ABOUT US

Delhi Technological University (DTU) is one of the most well-known engineering institutions in India, with over 75 years of glorious tradition behind it. A non-affiliating, teaching and research university, DTU is poised to create an environment of a synergetic partnership between academia and industry. It aims to cause a major departure from the conventional system of education and research. It aspires to imbibe a culture of scientific research in its management and technology disciplines, and develop scientific temper by providing a seamless environment for integration of science, engineering and management. DTU has consistently been ranked among the top institutions of the country in reputed surveys.

Delhi School of Management (DSM) was established in 2009. With a vision of inculcating a penchant for innovation, research, and experimentation, DSM aims at extending the seven-decade long legacy of DCE by incubating and developing techno-managers, who are adept at identifying pertinent and critical business problems, and applying their technical skills and competencies in solving those issues. DSM strives to inculcate in its students the managerial competence, and other professional services in order to fulfill its role of a vibrant and model institution, capable of imparting quality education in the area of 'Management Studies'. DSM envisions at developing a knowledge society by providing equitable access to the masses and broadening the span of their participation in the areas of higher education.

ABOUT THE PROGRAMME

"Success today requires the agility and drive to constantly rethink, reinvigorate, react, and reinvent."

- Bill Gates

We live in the age of disruptions, driven by exponential technological progress. The new era is ushering a plethora of opportunities on one hand, while posing a lot of challenges on the other. The time has come to face the challenges and hone the capabilities of the organisations through mobilizing the human capital. This programme is for 'Middle' and 'Senior' level executives working in the industry as well as for academicians. It will provide them an in-depth understanding of the uncertainties prevailing in today's world and will equip them to deal with them in real-life business scenarios. On successful completion of the programme, participants will be able to understand and handle the impediments to effectiveness in the age of agility.
