

Press release regarding welcome ceremony of newly admitted UG and PG students

Delhi Technological University (formerly Delhi College of Engineering) has emerged as the leading institution for technology education & research in the country. DTU continues to be the most sought-after destination for undergraduate and post graduate studies and attracts the top-performers in National Examinations such as JEE (Mains) and GATE. DTU attracts best of minds for its faculty and students, ensures high academic standards and encourages research and innovations in all areas relevant to industries and society. The fact lies that DTU is preferred over many high ranked institutions as a destinations to fulfill their academic and research pursuit. The admission process for under graduate (B.Tech) and post graduate (M.Tech. MBA & Ph.D) courses are nearly at the verge of completion. The welcome ceremony of newly admitted UG and PG students of Delhi Technological University is scheduled on 1st Aug 2015. Hon'ble Vice Chancellor will inspire and motivate the newly admitted students to achieve excellence in their academics and research.

The UG admission of the University is based on JEE (mains) All India Rank.. The admission process is being carried out by Joint Admission Counseling (JAC) 2015 with other participating Institutions (NSIT, IGDTUW & IIITD). The admission process for 1547 UG seats through JAC is nearly completed. It is matter of immense pride and satisfaction that University has attracted AIR 51 of JEE (Mains) as the opening rank at DTU. The filling-up of seats at such high JEE rank clearly proves the popularity of DTU among the talented youth of the country. The admission of NRI students is based on SAT examination. This year we admitted around 70 NRI students through the support of DASA.

The admission process into M.Tech program is based on GATE 2015. The University offers 22 M.Tech programs. Around 400 students have already admitted upto third round. The admission for MBA program (Regular) is based on CAT examination. Around 70 students have been admitted upto the third round. The Ph.D. admission process is under progress.

The University has taken several new initiatives in restructuring and strengthening its academic programs by revising and strengthening its curriculum, introduction of grading system, which will be followed from current academic year. The new curriculum structure includes the right combinations of foundation courses, university electives and departmental electives. The structure introduced a new rigor methodology in undergraduate teaching and continuous evaluation, laying emphasis on developing analytical and professional skills and challenging the students intellectually and globally.

High quality education, industrial linkage and collaborations, culture of innovation & research right at undergraduate and post graduate level and above all, an excellent placement records have made DTU a sought after institution for higher education among the budding engineers. The above is also evident from the fact that there is a continuous improvement in the ranking of DTU; from the 14th overall rank in 2008 to the 5th overall rank in 2015 in the survey of technical institutions conducted by India Today.
