

Recent Advances in Alternative Energy

Sources

(January 29, 2018)

National Workshop

Chairman:

Prof. Vipin, HOD, Mech, DTU.

Convenor

Dr. Amit Pal,

Organizing Secretary:

Dr. Raj kumar Singh,

Dr. Girish Kumar

Sh. M. Zunaid

Organized by

**Department of Mechanical, Automobile
and Production & Industrial
Engineering**

**Delhi Technological University
Bawana Road, Delhi-110042**

Topics to be covered

- Waste to Energy
- Biomass and Biofuels
- Solar Photovoltaic and Solar Thermal
- Wind Energy
- Alternate cleaner fuels (CNG/LPG)

Resource persons

Faculty of DTU/ IIT/Pusan University Korea, and other Experts from industry & Research organizations

Venue:

Committee Room(FW4-GF5)
Mechanical Engineering Department

For further information

Please visit institute Website., Brochure can also be downloaded by the link provided.

E-mail: amitpal@dce.ac.in,

mzunaid3k@gmail.com

Mob:9868543545,09891851069

Important Dates

- **Last date for receipt of applications:** Registration form complete in all respect may be sent to the course coordinators latest by January 20, 2018.

APPLICATION FORM Recent Advances in Alternative Energy Sources (January 29, 2018)

1. Name:

2. Date of Birth:

3. Designation :

4. Institution:

5. Institution AICTE approved Yes / No

6. Address for correspondence :-----

Mobile:

E-mail:

7. Qualifications with Specialization

8. Area of research:

8. Experience (in years)

Teaching

Research

Industry

Declaration

The information provided is true to the best of my knowledge. If, selected, I agree to abide by the rules and regulations of the course and shall attend the course for the entire duration.

(Signature of Applicant)

SPONSORSHIP CERTIFICATE

Dr/Mr/Mrs/Ms-----

----- is an employee of our institute and is hereby sponsored to participate in the **National Workshop-2018**

Place:

Date:

Signature of Head of Department

Introduction

With the pollution levels reaching to alarming levels, worldwide there is a quest to search for the environment friendly alternative energy technologies. Renewable technologies are potential sources of clean energy and their optimal use may lead to minimize environmental impacts, produce minimum secondary wastes prove them economically viable. Sun is the cause of all energies. The primary forms of solar energy are heat and light. Sunlight and heat are transformed and absorbed by the environment in innumerable ways. Some of these transformations result in renewable energy flows such as biomass and wind energy. Renewable energy technologies offer an excellent opportunity for mitigation of greenhouse gas emission and reducing global warming by substituting conventional energy sources.

Target Participants

The programme is open to the faculty of AICTE approved educational institutions and the professionals from research organizations and Industries.

Registration

- Registration form in the prescribed format approved/sponsored by competent authority should reach to the Course Coordinator on or before January 20, 2018.

There is no Registration fee for participants from AICTE approved institutions. Advance registration is Mandatory. For industry professionals, the registration fee is Rs 1000/ per person in the form of DD favouring Registrar, DTU, Delhi. List of selected participants will be displayed on University website <http://dtu.ac.in/>

Accommodation and Travel

Accommodation for few pre-registered delegates can be arranged in Campus Guest house or Hostels on payment basis if available. The delegates will have to bear the expenses. TA/DA will not be paid for attending the workshop. However, tea/snacks etc. will be provided during course.

About DTU, Delhi

Delhi Polytechnic was established in the year 1941. The institution was set up at historic Kashmere Gate campus as a follow up of the Wood and Abott Committee of 1938. The national diploma awarded by the institution was recognized as equivalent to degree level for the purposes of employment. In 1952 the college was affiliated with University of Delhi and called as Delhi College of Engineering. The department of Architecture later became the School of Planning and Architecture, now a Deemed University and Institution of National importance. The department of Arts and Sculpture became College of Arts and the departments of Chemical Technology and Textile Technology were shifted out en-block to mark beginning of the IIT Delhi. DCE was given the status of University (DTU) in the year 2009.

The Department of Mechanical Engineering

The Department of Mechanical Engineering and Production & Industrial Engineering has seen considerable growth since its inception in 1941. The department offers UG programme in mechanical, Production & Industrial Engineering and Automobile Engineering and PG programmes on Thermal Engineering, Production Engineering, Renewable Energy Technology and Computational Design. About 150 Research scholars are presently pursuing their Ph.D. The department possesses modern laboratories equipped with latest experimental set-ups and research facilities for instrumentation, experimental stress analysis, strength of materials, fluid mechanics, IC engines, automotive engineering, robotics, heat transfer, solar energy, flexible manufacturing system, computational fluid dynamics supported by Software like view-flex, CAD-CAM etc.

The department is having many small to medium capacity bio-diesel processing units based on conventional and latest technologies. Different species of non-edible oil such as linseed, cottanseed, waste cooking oil and high FFA rice bran oil, jatropha, Karanja, mahua, neem oil etc., have been successfully converted into bio diesel. The processed biodiesel has been tested on both constant speed and variable speed engines for performance and emissions.
