DTU Connect Platform

About the Program: The Launch of 'DTU Connect' App, a platform built to bridge the gap between DTU students and alumni network happening on 22nd October 2019 at 11 AM in Dr. B. R. Ambedkar Auditorium. DTU connect is the perfect platform which would connect students to great personalities and will enable them to learn and enhance their skill sets. This process will lead to exceptional innovations, researches, idea sharing and brainstorming which are great signs for the University.

With this event, University is entering into another era of education where pass out students will not be mere job seekers but job creators and holders of Intellectual property in their name. After the launch of the event every student will have an opportunity to submit his/ her idea which can be protected as Patent/ Design/ IC layout Design and has the potential of being converted into a product. These ideas will be scrutinized by experts from Industry and Academia and all ideas which pass the scrutiny will be sent for novelty search. The students whose ideas clear both stages will be provided mentors from Industry/ University and seed money will be provided to work on their ideas for 6month to 1 year. After that if the idea has been converted into a form which can be protected as IP then University will file the protection. Students will be encouraged to continue to work in these products by incubating a startup or commercialized the product.
