- Knock out - 11 points
 - Quarterfinals and Semifinals – 21 points
 - Final – Best of 03 Games- 21 points in each Game
-
1. To score a point the shuttlecock must hit within the parameters of the opponent's court.
 2. If the shuttlecock hits the net or lands out then a point is awarded to your opponent.
 3. Players must serve diagonally across the net to their opponent. As points are won then serving stations move from one side to the other. There are no second serves so if your first serve goes out then your opponent wins the point.
 4. A serve must be hit underarm and below the server's waist. No overarm serves are allowed.
 5. Each game will start with a toss to determine which player will serve first and which side of the court the opponent would like to start from.
 6. Once the shuttlecock is 'live' then a player may move around the court as they wish. They are permitted to hit the shuttlecock from out of the playing area.
 7. If a player touches the net with any part of their body or racket then it is deemed a fault and their opponent receives the point.
 8. A fault is also called if a player deliberately distracts their opponent, the shuttlecock is caught in the racket then flung, the shuttlecock is hit twice or if the player continues to infract with the laws of badminton.
 9. Each game is umpired by a referee on a high chair who overlooks the game. There are also line judges who monitor if the shuttlecock lands in or not. The referee has overriding calls on infringements and faults.
 10. Let may be called by the referee if an unforeseen or accidental circumstance arose. These may include the shuttlecock getting stuck in the net, server serving out of turn, one player was not ready or a decision which is too close to call.
 11. If the laws are continuously broken by a player then the referee holds the power to dock that player of points with persisting fouls receiving a forfeit of the set or even the match.

CHESS

Format of Match - Men

- Knock outs – Points Scored in 10 Minutes
- Semifinals and Finals – Points Scored in 15 Minutes

White is always first to move and players take turns alternately moving one piece at a time. Movement is required. If a player's turn is to move, he is not in check but has no legal moves, this situation is called "Stalemate" and it ends the game in a draw. Each type of piece has its own method of movement. A piece may be moved to another position or may capture an opponent's piece, replacing on its square (en passant being the only exception). With the exception of the knight, a piece may not move over or through any of the other pieces. When a king is threatened with capture (but can protect himself or escape), it's called check. If a king is in check, then the player must make a move that eliminates the threat of capture and cannot leave the king in check. Checkmate happens when a king is placed in check and there is no legal move to escape. Checkmate ends the game and the side whose king was checkmated loses

DELHI TECHNOLOGICAL UNIVERSITY PARAAKRAM 2024 – RULES

CARROM

Format of Match (Men & Women)

- Knock out – Knock out - (5 coins+ queen) or (points scored in 10 mins), whichever is earlier
- Semifinal - Board clear
- Final – Board Clear

Striking

- For each strike, the player must position the striker within the baseline OR on one of the two circles at either end of the baseline.
- A striker within the baseline must touch both the front line and the rear line.
- The striker may not "cut the moon" - be placed partially within the baseline and partially within the circle.
- The player must flick the striker with one finger so that it crosses the front baseline - it is not permitted to flick backwards or horizontally.
- A piece that is on or behind the front baseline must not be struck by the striker until the striker has crossed the front baseline.
- In striking, the player's hand or arm must not cross the diagonal foul lines at either end of the baseline.

Basic rules

- For the very first turn, the player is allowed three attempts to "break" i.e. disturb the central group of counters.
- It doesn't matter which piece the striker hits first and it doesn't matter if the striker hits no pieces.
- If a the striker pockets the Queen and/or one or more pieces of her own colour, the player retrieves the striker and takes another strike.
- If the player pockets no pieces or commits a foul, the turn finishes.
- Covering the Queen
- A player may only pocket and cover the Queen if that player has already pocketed at least one piece of that player's colour.
- Should a player pocket the Queen before being permitted to cover it, the turn continues but the Queen is returned to the centre at the end of the turn.
- If a player pockets the Queen and one of her own pieces in the same turn, this counts and that player has covered the Queen. Such a player must have already pocketed at least one piece in order to cover the Queen as per normal.
- When a player pockets the Queen but does not cover it, the Queen is returned as near as possible to the centre circle by the opponent.

Other Rules

- Pieces returned to the centre can be placed on top of other pieces within the main circle.
- If pieces come to rest standing on their edge or overlapping another piece, they are left as they are until moved again in the normal course of play.
- If the striker comes to rest under another piece, the striker should be removed with as little disturbance to the covering piece as possible.

Fouls

When a player commits a foul, the turn comes to an end immediately and a penalty is incurred. The penalty is that one pocketed piece is returned to the board by the opponent anywhere within the main circle. Any other pieces requiring to be returned to the board are also placed within the main circle by the opponent. It is normal for pieces to be positioned in order to confer an advantage for the opponent.

A foul is recorded in the following situations:

- The striker is pocketed.
- The striker or any other piece leaves the board.
- A player pockets an opponent's piece. If the Queen was also pocketed, it is returned to the centre by the opponent together with the penalty piece. Any other pieces pocketed in the same strike remain pocketed.
- A player pockets the final opponent's piece. Regardless of whether the Queen has been covered, the opponent's piece is returned to the centre in addition to the penalty piece.
- A player pockets the final piece before the Queen has been covered. In this case both the pocketed piece and a penalty piece are returned to the centre.
- A player contravenes the rules for striking.
- A player touches any piece in play, other than the striker.
- The first player to strike fails to break the counters in three attempts.
- Where a penalty is incurred but no pocketed pieces exist to return, the penalty is "owed" until a piece becomes available. If a penalty is owed, when a piece becomes available due to being pocketed, the piece is returned to the centre by the opponent at the end of the turn. Should the opponent forget to do this before the start of the next turn, any owed penalties are lost.

LAWN TENNIS

Format of Match - Men

- League Knock Out Matches (BEST OF 3 GAMES, 4 POINTS EACH)
 - Semifinal - (BEST OF 3 GAMES, 4 POINTS EACH)
 - Final – (BEST OF 5 GAMES, 4 POINTS EACH)
-
1. The game starts with a coin toss to determine which player must serve first and which side they want to serve from.
 2. The server must then serve each point from alternative sides on the base line. At no point must the server's feet move in front of the baseline on the court prior to hitting their serve.
 3. If the server fails to get their first serve in they may take advantage of a second serve. If they again fail to get their second serve in then a double fault will be called and the point lost.
 4. If the server clips the net but the ball goes in the service area still then let is called and they get to take that serve again without penalty. If the ball hits the net and fails to go in the service area then out is called and they lose that serve.
 5. The receiver may stand where they wish upon receipt of the serve. If the ball is struck without the serve bouncing then the server will receive the point.
 6. Once a serve has been made the amount of shots between the players can be unlimited. The point is won by hitting the ball so the opponent fails to return it in the scoring areas.
 7. If a player touches the net, distracts his opponent or impedes in anyway then they automatically lose the point.
 8. The ball can hit any part of the line for the point to be called in, outside the line and the ball is out.
