26. Delivery

26.1 The supplier shall deliver the goods and perform the services under the contract within the time schedule specified by the DTU/Consignee in the List of Requirements and as incorporated in the contract. The time for and the date of delivery of the goods stipulated in the schedule shall be deemed to be of the essence of the contract and the delivery must be completed not later than the date (s) as specified in the contract.

26.2 Any unexcused delay by the supplier in maintaining its contractual obligations towards delivery of goods and performance of services shall render the supplier liable to any or all of the following sanctions:

- (i) Imposition of liquidated damages,
- (ii) Forfeiture of its performance security and
- (iii) Termination of the contract for default.

26.3 If at any time during the currency of the contract, the supplier encounters conditions hindering timely delivery of the goods and performance of services, the supplier shall promptly inform the DTU/Consignee in writing about the same and its likely duration and make a request to the DTU/Consignee for extension of the delivery schedule accordingly. On receiving the supplier's communication, the DTU/Consignee shall examine the situation as soon as possible and, at its discretion, may agree to extend the delivery schedule, with or without liquidated damages for completion of supplier's contractual obligations by issuing an amendment to the contract.

26.4 When the period of delivery is extended due to unexcused delay by the supplier, the amendment letter extending the delivery period shall, inter alia contain the following conditions:

(a) The DTU/Consignee shall recover from the supplier, liquidated damages on the goods and services, which the Supplier has failed to deliver within the delivery period stipulated in the contract.

(b) That no increase in price on account of any ground, whatsoever, including any stipulation in the contract for increase in price on any other ground and, also including statutory increase in or fresh imposition of any tax or duty which may be levied in respect of the goods and services specified in the contract, which takes place after the date of delivery stipulated in the contract shall be admissible on such of the said goods and services as are delivered and performed after the date of the delivery stipulated in the contract.

(c) But nevertheless, the DTU/Consignee shall be entitled to the benefit of any retrospective decrease in price on account of reduction in or remission of any duty or tax or levy or on account of any other grounds, which takes place after the expiry of the date of delivery stipulated in the contract.

26. 5 The supplier shall not dispatch the goods after expiry of the delivery period. The supplier is required to apply to the DTU/Consignee for extension of delivery period and obtain the same before despatch. In case the supplier dispatches the goods without obtaining an extension, it would be doing so at its own risk and no claim for payment for such supply and / or any other expense related to such supply shall lie against the DTU.

26.6 Passing of Property:

1. The property in the goods shall not pass to the DTU unless and until the goods have been delivered to the consignee in accordance with the conditions of the contract.

2. Where there is a contract for sale of specific goods and the supplier is bound to do something to the goods for the purpose of putting them into a deliverable state the property does not pass until such thing is done.

3. Unless otherwise agreed, the goods remain at the supplier's risk until the property therein is transferred to the DTU.

27. Liquidated damages

The Competent Authority reserves the right to levy liquidated damages up to 2% of the value of the order for delayed supply. If the supply is delayed beyond the extended period, the University reserves the right even to cancel the order and forfeit the EMD of the firm/ tenderer.

28. Termination for default

1. The DTU/Consignee, without prejudice to any other contractual rights and remedies available to it (the DTU/Consignee), may, by written notice of default sent to the supplier, terminate the contract in whole or in part, if the supplier fails to deliver any or all of the goods or fails to perform any other contractual obligation(s) within the time period specified in the contract, or within any extension thereof granted by the DTU/Consignee.
2. In the event of the DTU/Consignee terminates the contract in whole or in part, the DTU/Consignee may procure goods and/or services similar to those cancelled, with such terms and conditions and in such manner as it deems fit and the supplier shall be liable to the DTU/Consignee for the extra expenditure, if any, incurred by the DTU/Consignee for arranging such procurement.
3. Unless otherwise instructed by the DTU/Consignee, the supplier shall continue to perform the contract to the extent not terminated.

29. Termination for insolvency

If the supplier becomes bankrupt or otherwise insolvent, the DTU reserves the right to terminate the contract at any time, by serving written notice to the supplier without any compensation, whatsoever, to the supplier, subject to further condition that such termination will not prejudice or affect the rights and remedies which have accrued and / or will accrue thereafter to the DTU/Consignee.

30. Force Majeure

Notwithstanding the provisions relating to extension of time, penalty and cancellation of tender/contract for default, the vendor shall not be liable for forfeiture of its performance security/ liquidated damages or termination for default, if and to the extent that, its delay in performance or other failure to perform its obligations under the contract is the result of an event of Force Majeure (i.e. an event or situation beyond the control of the vendor that is not foreseeable, is unavoidable, and its origin is not due to negligence or lack of care on the part of the vendor; such as wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes etc.). If the performance in whole or in part or any obligation under the contract is prevented or delayed by any reason of force-majeure for a period exceeding 60 days, either party may at its option terminate the contract by sending a written notice without any financial repercussions on either side.

31. Termination for convenience

 - 14.3 The equipment's covered under the contract shall be repaired and rectified on site as and when the same is out of order. The cost of the original spares required for maintenance of equipment shall be borne by the Contractor/Vendor.

- 14.4 The Contractor/Vendor will ensure 4 (four) Nos. of preventive maintenance of all the equipment and accessories as per the schedule and all breakdown calls. In case schedule for any of the equipment is not available, the maintenance work will be carried out as per the instructions of the Lab-in-charge HOD.
- 14.5 The Contractor/Vendor will attend all type of minor or major breakdown immediately.
- 14.6 The service engineer of the Contractor/ Vendor shall be required to enter each and every repair done in the logbook duly counter signed by HOD/In-charge Supervisor of Department.
- 14.7 The routine maintenance shall be carried out in the day shift in presence of Lab-In-charge of Department and shall be recorded in the logbook.
- 14.8 Separate logbook for each equipment shall be maintained. The logbooks shall be put up to the Lab-In-charge of Department.
- 14.9 The Contractor/Vendor shall have to arrange at site all the necessary tools, measuring devices, etc. necessary for the repair of the equipments. Also he will maintain at site the necessary spare-parts/consumables required for maintenance/repair.
- 14.10 The cost of all the electrical spares related to equipment and accessories including repairing of electrical motors etc. will be borne by Contractor/Vendor.
- 14.11 This contract does also cover all consumables and accessories like gaskets, grease etc.
- 14.12 If spare part is required to be imported, such imports shall be the responsibility of Contract/Vendor.
- 14.13 The Contractor/Vendor will have to sign prescribed agreement along-with terms & conditions on 100 Rupees stamp paper.
15. **DOWN TIME**
- 15.1 For the purpose of calculation of down time, breakdown time shall be calculated on hourly basis.
- 15.2 Payment of Comprehensive Annual Maintenance Contract (herein after referred as "CAMC") will not be made for the period specific equipment remains out of order for more than 5 days in a month due to any reason.
- 15.3 The Contractor/Vendor shall be given total breakdown time of 5 days for each equipment in a month. This period shall not be accumulated to next months. Also three days shall be allowed to Contractor/ Vendor in a year for overhauling of equipment. The Contractor/ Vendor shall have to plan and intimate the date for overhauling to lab-in-charge and HOD of the University well in advance.
- 15.4 The Contractor/Vendor will have to keep in stock regular spare-parts/consumables so as to replace immediately for the purpose of repair. The Contractor/ Vendor shall place it back after repairs. Old worn out spare parts will be property of contractor
16. **PENALTY.**
- 16.1 Any EQUIPMENT remaining unattended beyond 24 hours or out of order beyond 5 days from receipt of complaint; then CAMC period for unit will be extended to twice time that of breakdown period and a suitable penalty on per day basis will be imposed & deductions will be affected from the next due payment.
- 16.2 Four Nos. of Preventive Maintenance Services (PMS) per year will be provided on quarterly basis i.e. One every 90 days. If there is delay in providing PMS, the CAMC period will be extended with same period that occurred to provide PMS, so that PMS schedule is maintained as per CAMC.
- 16.3 If the system failure occurs due to electrical fault from DTU, the penalty shall not be levied.
17. **STAMP DUTY:-**
- Stamp duty leviable on agreement to be executed between the University and Contractor/ Vendor shall be borne by the Contractor/Vendor.
18. **NOTICE PERIOD FOR ABANDONMENT OF CONTRACT:-**
- Either party shall be entitled to abandon the contract after serving three month notice in writing to the other party regarding abandonment of contract. However, the Contractor/ Vendor given the contract shall have to continue the work even after expiry of the notice period of three months till an alternative arrangement is made by the University. No compensation of claim in the event of such abandonment shall be admissible to the Contractor/ Vendor.
19. **DISPUTE:-**
- 19.1 If any dispute or difference arises between the parties relating or concerning or to interpretation of the contract or any alleged breach thereof or any matter relating to the contract, the same shall be settled by the parties as far possible by mutual discussion and consultation between themselves, whether the same has arisen during the subsistence of the contract or thereafter. In the event of any dispute or differences arising in connection with the contract arising out of this contract whether during the subsistence of the contract or there after not being settled in aforesaid manner, the matter shall be referred to the Vice-

Chancellor Delhi Technological University or his nominee not below the rank of Deputy Registrar for arbitration whose decision shall be final and binding on both the parties. The proceedings before the arbitrator would be governed by the provision of the **ARBITRATION AND CONCILIATION ACT, 1996**. Venue of Arbitration shall be at Delhi.

19.2 The courts shall have exclusive jurisdiction in all matters arising out of this Contract Delhi courts only.

20. **TERMINATION OF AGREEMENT:**

20.1 After giving opportunity of being heard to the Contractor/ Vendor, University may terminate/cancel the agreement on the following grounds:-

A- Breach of any or all terms and conditions of agreement.

B- Non-performance or unsatisfactory performance of work executed by the Contractor/ Vendor.

C- If at any time document or information furnished with Tender is found forged or fabricated during the subsistence of the contract.

21.2 If a Force Majeure situation arises, the University shall intimate to Contractor/Vendor and Contractor/Vendor shall promptly notify the University in writing of such condition and the cause thereof.

SECTION-XII
DETAILED TECHNICAL SPECIFICATION OF

Field Emission Scanning Electron Microscope should have following specifications

Sl. No	Features	Specifications
1	Electron Gun	Thermal Schottky field emitter
2	Resolution	0.8nm at 15 kV or better 1.0nm at 1kV or better The resolution must be demonstrated at the given acceleration voltages at the time of installation.
3	Magnification	Minimum 25x to 1,000,000X or better
4	Accelerating Voltage	Lower Limit 100V or less Upper Limit 30KV or higher
5	Probe current	200 nA or more
6	Electron Optics	The system should have Beam Deceleration mode / Gentle Beam mode / Beam Booster technology for high resolution & high contrast imaging at low KV.
7	Specimen Stage	5 axis Eucentric fully motorized stage with stage movements With travel range in X=110mm or more Y:80mm or more Z:40mm or more Tilt:-5° to 70° or better Rotation:360° Multi-specimen carousel and specimen holder. It must hold/mount minimum of 8 stubs having diameter of 1 cm each or more. The stage movement must have option to be performed by both mouse click/drag and conventional joystick/trackball mode.
8	Specimen Chamber and Ports	Minimum 8 ports. Chamber must be suitable for future system up-gradation to accommodate additional detectors for EBSD.(one port should be suitable for EDS and other for EBSD)
9	Detectors	The system must be equipped with In column detector /Upper detector/in-lens Secondary Electron Detector or equivalent detector to provide high resolution images. Chamber mounted secondary electron detector In-lens/In-column Back Scattered Electron detector Directional/Retractable Back Scattered Electron Detector IR CCD camera

10	Vacuum System	Fully automated system comprising of Ion Pump (SIP/IGP or equivalent), Turbo Molecular Pumps (TMP) backed by rotary pump, pneumatic valves for attaining required vacuum and hassle free operations. Automatic venting of chamber by N ₂ . Filled gas cylinder must be supplied with the FESEM.
11	User Interface	Fully computer controlled system with window based Software for operating the Microscope with keyboard, mouse
12	Desired features	FESEM should have energy filter technology to filter SE and BSE signals While changing the probe current, probe diameter should be minimum FESEM should have anti contamination / Liquid Nitrogen trap facility Charge free scan FESEM should have in-situ Plasma Cleaning facility Power supporter for back up for FESEM Autofocus, auto brightness and contrast, auto stigma
13	WorkStation and Software	Latest desktop system with sufficient USB ports and windows compatible operating system to operate FESEM and all attachments and 23 inch or better LED/ LCD monitor. Image file in JPEG, TIFF & BMP formats. Any further version of the software and updates must be provided free of cost.
14.	Support Table	Anti-vibration table for whole FESEM and support table for monitors.
15.	Calibration standards	Standard samples to check the system calibration, resolution, magnification etc.
16	Manual	One set of instruction manual and service manual (both hard and soft copy in English) should be supplied with the equipment.
17	Pre Installation requirements	Pre-installation requirements such as room size, tolerable limits of EM field and vibration (mechanical), required power rating; utility requirements are to be stated clearly, and to be verified/surveyed by the supplier at the installation site. It is the supplier's responsibility to clearly provide details of the above mentioned requirements before 120 days of delivery of the equipment. Vendors must conduct the site survey before installation at no additional cost.
18	Training	The manufacturer / supplier of FESEM should provide five days on site training in both hardware and software to the laboratory personnel in the installation, operation and maintenance of the instruments.
19	Tool kit	Tweezers/gripper for holding different kind of sample holder, essential toolkit is to be supplied with the equipment for the required maintenance.
20	Consumables	The system should be supplied with all the accessories and consumables to run for at least 5 years. More precisely, apertures, objective caps, gaskets, seals, O-ring, fuse etc. 20 number of single stubs and 10 number of multiple sample holders

21	Au coater	Sputter coater to be provided for metal coating Au and Au/Pd with 1 each target and Ar/N ₂ gas cylinder for the coater.
22	Carbon coater	Carbon coater to be supplied with carbon rods 2 nos.
23	EDS	<p>LN2 Free SDD detector with 30mm² crystal area and 129 eV resolution or better.</p> <p>The elements detection range should be from Beryllium (Be) to Uranium (U).</p> <p>The EDS should be capable of selective element mapping, line scan, selected area analysis, quantitative analysis, qualitative analysis, multipoint analysis.</p> <p>The provided EDS system should have the capability to be upgraded to WDS for future research requirements.</p> <p>Supplied EDS server & analysis software should be capable of performing data acquisition, storing and transfer in common Windows based application format, qualitative & quantitative analysis, line scanning, elemental or dot-mapping (area) including spectrum imaging and phase mapping with specimen drift correction.</p> <p>All these capabilities should be applicable for polished flat specimens, fractured samples and nano structured particulate systems.</p> <p>User interactive qualitative and standard less/ standards based quantification with K, L, M, N line database. Real time elemental mapping with auto elemental identification, quantification based on ZAF, Phi ZAF. Should have quantification algorithm for uneven surfaces and under tilted conditions</p> <p>Pile up correction and background noise reduction, simultaneous imaging and analysis should be possible.</p> <p>Thin film analysis software with nanometer scale resolution in both space and depth capabilities should be quoted.</p>
24	Chiller and Compressor	Branded chiller and compressor (as required for your system) must be supplied to support the quoted system for smooth operation. Brand should be mentioned.
25	UPS	10 kVA or more online UPS with at least 1h backup

26	Warranty	<p>d) System should be covered in extended warranty for 5 years, including all spare parts. These 5 years warranty includes the initial one year warranty with the machine, implying one plus four years extended warranty).</p> <p>e) FE – Emitter has to be covered in warranty period, as many FE-emitter needed in warranty period has to be supplied by vendor as and when required.</p> <p>f) Vendors have to confirm Duty Prepaid Mode of delivery of replacement parts to DTU. There should be no financial impact on DTU during the warrantee period.</p> <p>g) After the Five years extended warranty, additional 5 years Comprehensive Maintenance Charges (CMC)is to be stated by the vendor. CMC charges will be included in computing the total cost of the equipment. It may be noted that the CMC charges shall be considered along with the cost of equipment for the financial evaluation of the bids.</p>
27.	Operator	<p>Vendor need to provide an Operator for one year from the date of Installation. The Operator needs to be fully trained by the Vendor on the day to day operation of the FESEM and will be fully responsible for upkeep and data collection. All Financial requirements of the operator needs to be borne by the Vendor.</p> <p>The preliminary educational and experience requirements are as follows:</p> <p>Essential requirement: B.Sc./B.Tech or equivalent with first division</p> <p>Desirable requirement: Hands on experience of around one year on materials characterization techniques.</p>
28.	Optional Items	<p>EBSD Electron back scattered detector.</p> <p>EBL Electron beam lithography and its accessories</p>

INSTALLATION AND COMMISSIONING:

1. The instrument to be installed tested and commissioned by representative of supplier in India at our premises to the satisfaction of user.
2. All documentation shall be in English language. In addition to the hard copies, soft copies of the manuals shall be submitted vide – CD.
 - a) System Operational Manual in print and CD
 - b) System Maintenance Manual in print and CD
 - c) Calibration Procedure Manual in print and CD

3. The successful tenderer shall coordinate sourcing of the auxiliary & accessory components such as water chiller, UPS, computers etc and delivering the items in the stipulated delivery period.
4. The supplier / manufacturer must provide training for the operation, troubleshooting and maintenance complete system.
5. Comprehensive training of faculty & staff after installation should be provided, wherever deemed appropriate and an update in every six months (3-4 days) for the first two years.

AFTER SALES SERVICE:

1. Product support for period of minimum 10 years after warranty period, to be ensured by vendor/supplier.
2. Vendor should supply the tentative cost of spare parts, including FE-Emitter and Detectors for 10 years and approximate time of installation.
3. Relevant software/hardware information in case of updating of the model of the supplied system should be provided.
4. Details of Service support structure to be provided along with the quotation. After sales service will be a component for technical evaluation of the equipment.
5. The manufacturer and/or their Indian representative must have at least two qualified and factory trained service engineer in India to be able to attend to service within 48 hours on submitting a complaint.
6. For warranty period only factory trained and certified engineers are acceptable to attend the Service.
