

# **Mathematics and Computing Society**

Report for Session 2021 - 2022

**Faculty Advisor:**

**Dr. Dinesh Udar**

Department of Applied Mathematics

# Overview

## **About MCE**

The Department of Applied Mathematics is the pride of DTU. The aim of the department is to impart the sound knowledge of Mathematics, Statistics and Computing to the students through teaching and research. The department is achieving its goals/objectives with the help of highly qualified faculty. The research output of the department is very impressive and speaks clearly for the quality of work. Faculty members are also actively involved in research, projects and various academic activities.

This program is an amalgamation of Mathematics with Computer Science and Financial Engineering. The curriculum has been designed to meet the needs of sophisticated mathematics for modern scientific investigations and technological developments. The students are being enriched with in-depth theoretical background and practical training in Numerical Computing, Operations Research, Computer Science and Mathematical finance by a team of committed faculty members from the disciplines of Pure Mathematics, Applied Mathematics, Computer Engineering, Information technology and Economics. These students are highly demanded by the recruiters of the top companies. They are also getting admission for higher studies in the top most Universities of India & abroad.

## **About MACS**

MACS acronym for Mathematics and Computing Society, MACS DTU, the Mathematics and Computing Society of Delhi Technological University is the tavern for the snollygosters and esurient for the profound knowledge of each domain belonging to Mathematics, Computing, Finance etc. It is the official department society with over 200+ member & faculty advisors that helps in providing students with a platform to discover Core knowledge of Applied Mathematics and Computer science subjects. MACS also provides every ardent enthusiast with a platform and incessant orientation to reach to the zenith with its asymptotes. It focuses upon learning through workshops, SIGs, seminars, guest lectures and various symposiums. MACS organises various events every year with the consortium of Invictus i.e, the tech fest organised by the DTU.

In the past years, MACS has emerged as the most prolific organisation with over 250+ active members contributing in various forms to the institute and department. It has emerged as a protuberant plinth for the aspirants under the direction of austere and benevolent boffins. The preponderance upon social media handles viz. Instagram and Facebook have gained gusto by vigorous engagement amongst the apprentices and the MACS. These handles have a combined reach of up to 2000 students belonging to various disciplines.

## **Our Council**

The MACS Council is the coterie of numerous deft engineers who coordinate and work adherently to organise and manage events, meetings and various conundrums in course of manoeuvres hosted by the society. The Council incessantly ensures to heft the accolade and acclamation that the MACS DTU commanded and what was bestowed upon this Council by the forerunners.

The Council is constituted by the Secretariat headed by the Faculty Advisor, a professor of Applied Mathematics along with the Student President of MACS. It comprises several posts and duties conferred to the wilful and deserving postulants stipulated through a series of interviews and analyses of past experience and contribution to the society.

## **Events**

The academic year 2020-2021 was no exception and MACS hosted various indigenous as well as extrinsic events. Directed to introduce and inculcate the interest and the plenitude of perquisites that the discipline of mathematics and various scions of computing proffer. The events were organised by the concurrence amongst the Council and the supervision of the Faculty Advisor.

## **Maths Gala:**

### *National Mathematics Day*

December 22, 2021

MACS DTU organised a Maths Gala to commemorate the National Mathematics Day, which is the birthday of one of the greatest Indian mathematicians, Srinivasa Ramanujan. Three events were organised, a mathematical quiz, chess competition and movie night.

### **QUIZ**

A mathematical quiz was organised by MACS DTU revolving around the themes: Mathematical History, Number Theory, Elementary Combinatorics, Probability and Statistics, and Game Theory. It showcased 30 questions of moderate

difficulty for a duration of 30 minutes. It was hosted on the website Dare to Compete, better known as D2C. It received participation in great numbers, about 140. The top 3 were selected and awarded a cash prize along with a Certificate of Achievement.

### **CHESS**

A chess competition was organised by MACS- DTU on the National Mathematics Day which had a massive participation of about 200 students.

It was hosted on lichess.com. After multiple rounds, the top 3 geniuses who checkmate first earned the title of chess god and took home exciting cash prizes along with a certificate of achievement.

### **MOVIE NIGHT**

MACS DTU organised a movie night on the National Mathematics Day and with people from outside the society as well, watched The Man Who Knew Infinity which is Srinivasa Ramanujan's Biopic. It is a historical movie that revolves around his life and his relationship with the esteemed mathematician, Prof. G H Hardy.

## Orientation:

January 4th, 2022

On the auspicious day of 4th January 2022. The Mathematics and computing society of Delhi Technological University organised it's orientation session for freshers that showcased a massive participation of more than 250 enthusiastic freshers. The event took place on Google Meet platform. The aim of the event was to provide academic assistance to aspiring students, explaining the purpose and perks of joining MACS, explaining road maps for coding and placements and interaction with seniors. The event started with an introduction of MACS-DTU. Further discussions were conducted about what the society is all about, perks of joining MACS and why you should join MACS. A slide covering the syllabus of applied mathematics was there to help students with their further academics. Then there were slides covering implementation of mathematics and computing in various fields like quantitative finance, machine learning and artificial intelligence were discussed

Then a section about cracking internships was covered. After this, came up the discussion of mathematical circle, a recent initiative of MACS. Then there were slides covering past year events conducted by MACS. Further popped up the discussion about various webinars conducted by MACS that included full stack development webinar, machine learning and artificial intelligence webinar, webinar with Dr. V.S.H Rao. Then there was discussion about competitions and events conducted by MACS that included the machine learning hackathon and MACS exclusive events like mathletics, mathematics relay and much more. Further slides covered zealous and talented seniors with multiple offers and internship offers

The meet wound up after seniors se mulaqaat session that was both fun and interactive. The event concluded with a positive note and participants showed immense enthusiasm in being a part of society.

Nikhilesh Jain is presenting

## PAST YEAR EVENTS

- TECH EVENTS
- MATH EVENTS
- MACS EXCLUSIVE EVENTS
- HIGHER STUDIES RELATED EVENTS

50 Gokul Agarwal can now join this meeting

5:19 PM | kzb-wzv-k-aio

## **Programming Fundamentals RoadMap:**

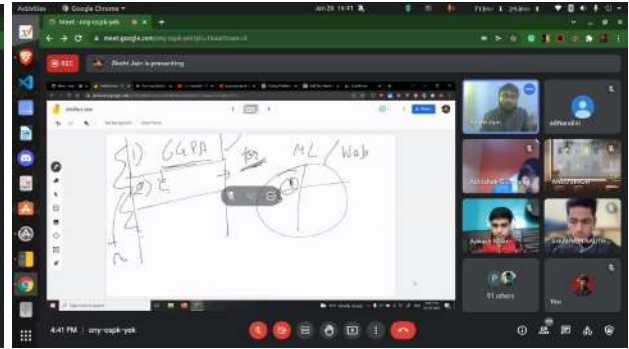

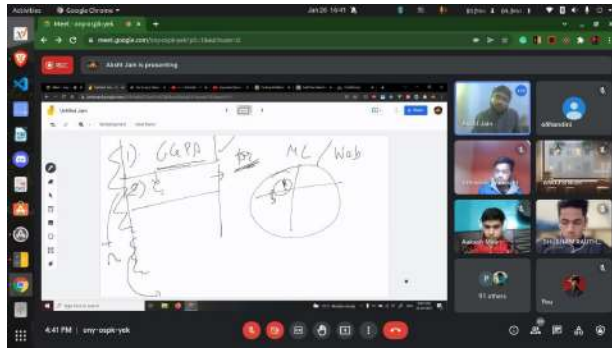

*26th January, 2022*

On 26th January, 2022, MACS-DTU had conducted a session on Programming Fundamentals which was taken by Mr. Aksht Jain, placed at Rippling, Candidate Master on CodeForces and Ex Vice-President of MACS-DTU. This session was conducted just to have an amazing interaction with our new recruits and to provide them exciting insights on how to begin your journey with programming and the most efficient road-map to kick start their programming.

First of all, our president briefed us about the session and then welcomed our esteemed senior, Mr. Aksht Jain. He started with a brief introduction and asked everyone to ask what exactly they want to know. Then Mr. Aksht Jain started with basics like why we want to learn coding stuff and took the session to internships and placements discussion. The whole discussion revolved around Programming Languages, Problem solving, Competitive Programming, Web Development, DSA, online platforms for practicing like LeetCode, CodeChef, Hackerrank. Then he discussed time management and how to set priorities to be amazing in academics, in maintaining excellent CGPA as well as in maintaining coding skills. Participants started questioning more as they found it very informative and helpful and wanted to gain as much as they could.

The session was extremely amazing and participants were full of great enthusiasm as the session lasted for around 1 hour 44 minutes with about 100 participants. With this zeal and confidence to have such interactive sessions, MACS-DTU has discussed and decided to conduct more such sessions.

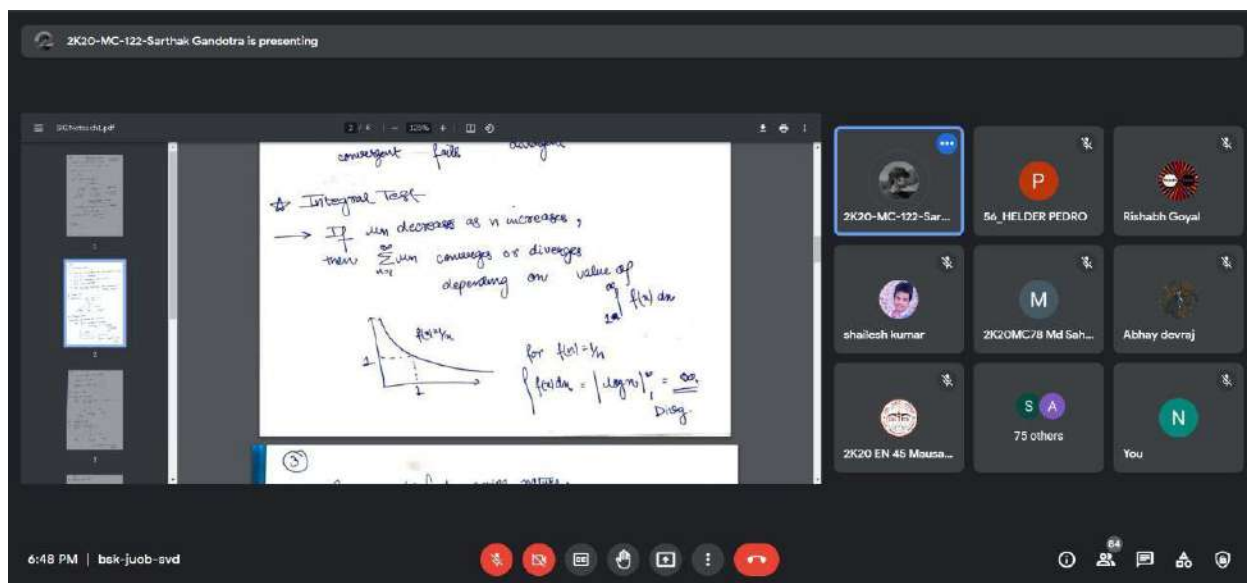

## **MA101: SIG**

*1st, 2nd and 3rd February 2022*

1st, 2nd and 3rd February 2022 has a remarkable presence in the calendar of Mathematics and computing society DTU for successful completion of the first SIG of this year. The event took place on Google meet and witnessed a massive participation of more than 100 enthusiastic learners along with shrewd seniors. The event went on for around an hour on 1st Feb and more than one and half hour on second and third February. The aim of the event was to impart the sound Knowledge of Mathematics, Statistics and Computing to the students through teaching and research.

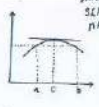

On the first day, freshers were introduced with the SIG program of MACS and the first unit of MA101 i.e sequences and series was covered.

On the second day the topic of curve tracing was covered which is the second unit of MA101 syllabus.

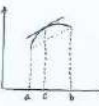

Aneesh Panchal is presenting

Rolls Theorem  
 function  $f$  is continuous on  $[a, b]$  & differentiable on  $(a, b)$   
 if  $f(a) = f(b)$   
 then  $\exists$  atleast 1 pt  $c$  such that  $c \in (a, b)$  &  $f'(c) = 0$

Lagrange's MVT  
 function  $f$  is continuous on  $[a, b]$  & differentiable on  $(a, b)$   
 then  $\exists$  atleast 1 pt  $c \in (a, b)$  such that  

$$f'(c) = \frac{f(b) - f(a)}{b - a}$$

Cauchy's MVT  
 functions  $f$  &  $g$  are continuous on  $[a, b]$  & differentiable on  $(a, b)$   
 &  $g'(x) \neq 0 \forall x \in (a, b)$   
 then  $\exists$  atleast 1 pt  $c \in (a, b)$  such that  

$$\frac{f'(c)}{g'(c)} = \frac{f(b) - f(a)}{g(b) - g(a)}$$

\* Differentiability guarantees Continuity  
 but vice not true (counterexample)

Sahi Raaid Sheheer can now join this meeting

On concluding day i.e third of February, all the queries from the above topics were solved and the event ended with a positive and knowledgeable message along with enlightening a zeal in freshers to learn more.

## **Roadmap for CP and DSA: Collaboration with Coding Ninjas**

*February 12th, 2022*

MACS, in collaboration with Coding Ninjas conducted a webinar on Data Structures and Algorithms and Competitive Programming on February 12th, 2022 in the online mode. The event took place on Google Meet and there were more than a 100 participants in the session. Coding Ninjas is a giant in tech-education and offers various courses in diversified tech fields.

The speaker of the day was Mr. Aditya Kumar, an alum of BITS Pilani, currently placed at Standard Chartered. He started off by discussing the importance DSA and CP hold in tech placements and how to go about them. All doubts of the participants were cleared and they received participation certificates.

This was followed up by a quiz also conducted in collaboration with Coding Ninjas that included prizes and swags worth Rs. 4.5K and was conducted in the next week.

The poster is for a live webinar titled "Roadmap for DSA and CP". It features the logos of Coding Ninjas and MACS at the top. The text "Live Webinar" is accompanied by a gear icon. The main title "Roadmap for DSA and CP" is prominently displayed. Below the title, the date and time "February 12th 2022 04:00 PM IST" are listed next to a calendar icon. Registration instructions "Register : Link in bio or Scan the QR code!" are provided with a notepad icon. A section titled "Quiz after webinar: Prizes worth ₹4.5K & certificates" is shown with a star icon. A portrait of the speaker, Rajat Saxena, a Software Engineer at Facebook, is featured in a hexagonal frame. At the bottom right, there is a QR code with the text "SCAN THE QR CODE TO REGISTER" next to it.

## **Prize Distribution:**

*March 2nd, 2022*

Current president of MACS, Mr. Shresth Jain, 3rd Year MCE, distributed the various prizes of the winners of the events conducted by MACS in this academic term. These include Math Gala on National Mathematics Day as well as the Machine Learning Hackathon in collaboration with BitGrit.

The event was conducted at the Mini OAT in the campus of Delhi Technological University at 6:00 PM.

## **Web Development Workshop, collaboration with CLIMB:**

*March 5th, 2022*

Web Development is one of the most sought-after skills in engineering college resumes. Keeping this in mind, a workshop was organized by CLIMB DTU in collaboration with MACS DTU as a part of Parakram, a fundraiser for the NGO Make Love Not Scars.

The speaker was Mr. Abhinav Gautam, placed and currently interning at Urban Company. This was a paid webinar and all earnings went to an NGO working for underprivileged acid-attack victims. The speaker discussed the basics of Web Development as well as the advanced, such as React.

This event was conducted in the online mode in the slot 2-4 PM.

The poster is for a 'WEB DEVELOPMENT WORKSHOP' organized by Parakram in collaboration with MACS and CLIMB. It features a circular portrait of the speaker, Abhinav Gautam, who is currently interning at Urban Company. The poster lists four topics: an introduction to React, interactive content on Styling, Hooks, and user inputs, getting started with Search Engine Optimization using React, and a small project at the end. It includes a QR code for registration, the date and time (5th March, 2022, 2:00 PM - 4:00 PM), and a note that certificates will be provided to all participants.

**परक़राम** **MACS** **CLIMB**

# WEB DEVELOPMENT WORKSHOP

**Abhinav Gautam**  
Placed and currently interning  
at Urban Company

- An introduction to basics of React language
- Interactive content aimed towards getting started with Styling, Hooks and user inputs
- Getting started with Search Engine Optimization using React
- Small project at the end of the mentioned topics

**2:00 PM - 4:00 PM**

Certificates for All

## **GSoC-101: Everything to know about GSoC '22**

*March 10th, 2022*

GSoC is one of the best events of the year but freshers don't always know about it. Keeping this in mind, MACS organised a webinar on GSoC. Google Summer of Code is a global, online program focused on bringing new contributors into open source software development, and we are here to help you out on this tremendous journey of you all. Saahil Ali, GSoC'21 and Github Extern'22, was the key speaker for this workshop. The workshop was open for all students and attended by more than a hundred.

The poster features a dark blue background with a teal header and footer. The title 'GSoC-101 Everything to Know about GSoC 22'' is prominently displayed in large, bold, orange and teal letters. In the top right corner, there is a circular logo for MACS (Mathematics And Computing Society) and a decorative pattern of teal dots. The bottom left corner shows a stylized illustration of a person sitting at a desk with a laptop. The central part of the poster contains a code block with a dark background and light blue text, titled 'MarkYourCalendars.txt'. The code is a JavaScript function that sets up a calendar event for GSoC 22'. To the right of the code block is a circular portrait of Saahil Ali. At the bottom, a teal banner contains the text 'Register Using the link in Bio!'.

# GSoC-101

## Everything to Know about GSoC 22'

## **INVICTUS 2022:**

*April 22 and 23, 2022*

Invictus is the annual technical fest of Delhi Technological University. Invictus'22 was organised on 29th and 30th April and brought aboard all the technical societies of DTU in this odyssey to make this fest captivating and knowledge enriched by conducting a multitude of brainstorming events.

MACS, the Mathematics and Computing Society of DTU was a core contributor in the success of this fest and led the logistics department. It organised 5 events, 2 of which were in collaboration with other technical societies of DTU:

1. Matheletics
2. Mathemapics
3. Number Auction
4. Financial Cricket (in collaboration with SIAM-DTU)
5. Treasure Hunt (in collaboration with SIAM-DTU and Tatva)

Treasure Hunt was conducted on Friday, 29th April 2022 and the rest of the 4 events were organised on Saturday, 30th April 2022.

## *Matheletics*

On 23rd April 2022, MACS-DTU, Mathematics and Computing Society of Delhi Technological University organized A head-scratching and challenging mathematical quiz. It was a thrill-filled 2 rounds followed by a grand faceoff finale.

The event was hosted offline in the Campus between 10:30 AM and 11:30 AM

The winners have been rewarded a cash prize worth Rs. 10,000.

The participants really enjoyed the Competition with participants thanking MACS DTU for an event filled with vigour and enthusiasm.

## *Mathemapics*

On 23rd April 2022, MACS-DTU, Mathematics and Computing Society of Delhi Technological University organized a two-round competition where participants tried to use their brains to figure out mathematical patterns, history and cultures hidden in pictures.

The event was hosted offline on the Campus between 10:30 AM and 11:30 AM.

The winners were rewarded a cash prize worth Rs. 10,000.

The participants really enjoyed the Competition with participants thanking MACS DTU for an event filled with vigour and enthusiasm.

### **Number Auction:**

MACS Organised a number auction which is an interesting take on some concepts of Game Theory. Participants were given a fixed amount and they needed to buy 3 numbers from the range 1 to 50 such that their sum was minimized. This event was conducted in online mode from 10:30 AM to 11:30 AM.

### **Prize Distribution Ceremony:**

All winners of the events organised by MACS-DTU were felicitated with certificates as well as their cash prizes by the Head of the Department of Applied Mathematics, Prof. S. Sivaprasad Kumar as well as Associated Head, Prof. C. P. Singh in the presence of Dr. Dinesh Udar, Assistant Professor, Department of Applied Mathematics as well as Dr. Vivek Kumar Aggarwal, Assistant Professor, Department of Applied Mathematics.

## **Machine Learning Seminar:**

*April 24, 2022*

On 24th April 2022, MACS DTU along with the Department of Mathematics presented a seminar, the first session of a ML and Data Science Workshop by MACS DTU. The seminar was conducted with the aim of providing in-depth knowledge for research in Machine Learning and Data Science. MACS invited Mr. Tejas Indulal Dhamecha, Senior Research Scientist and Manager at IBM Research AI, to serve as the keynote speaker for the seminar.

The event began at 4 PM on Sunday, 24th April. It started with Mr. Tejas Indulal Dhamecha explaining the basics of ML and Data Science with and their theoretical background in Mathematics. He then went on to explain the importance of ML and data science in the industry in this day and age, providing hands-on live examples of ML to depict its power to impact and solve some real-life problems. He then briefed the attendees about the recent development of ML/AL and their future advancements to look forward to and work towards. The seminar concluded with a small Q/A session with the attendees asking their respective doubts.

Over 100 students attended the seminar and were captivated by the intriguing world of ML and Data Science set forth by Mr. Tejas Indulal Dhamecha.

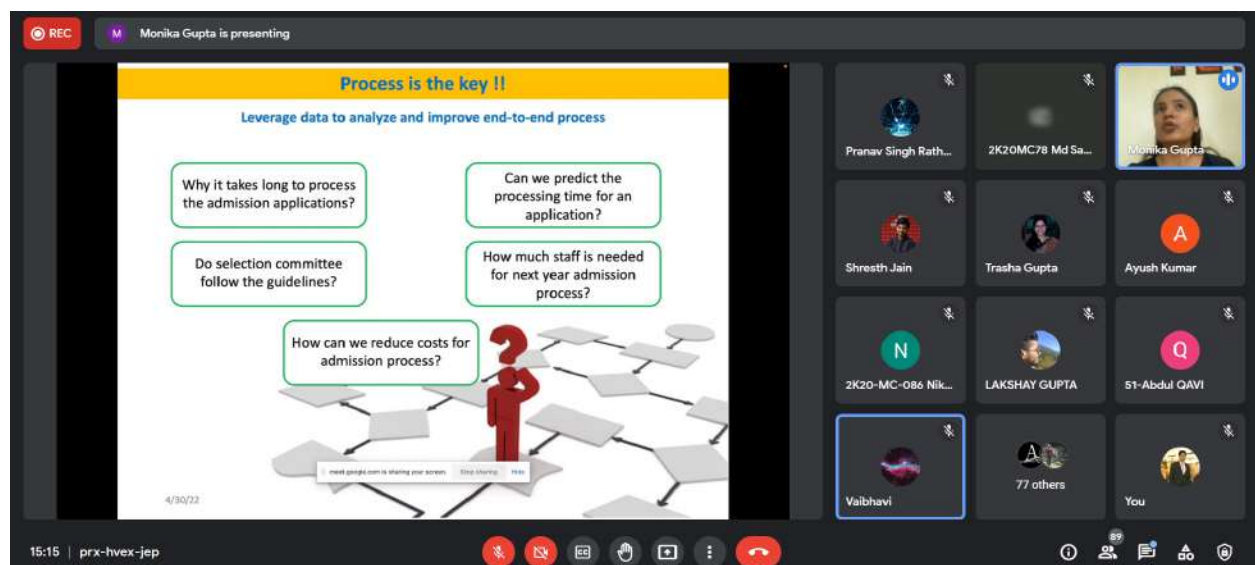

## **Process Mining Seminar:**

*April 30, 2022*

A seminar into the fascinating realm of Process Mining was held by MACS DTU along with the Department of Mathematics, DTU as the second session of the ML and Data Science Workshop. The keynote speaker of the session was Monika Gupta, who is currently placed at IBM Research. She guided the participants through the domain of process mining and its various applications.

The event commenced at 3 PM on Saturday, 30th April with Monika Gupta briefing the students about process mining. She then went on to explain the different process mining techniques further followed by elucidation on the applications of process mining in real-life applications. The program concluded with a quiz on ML with cash prizes worth Rs 1000, which was enthusiastically taken part in by all the participants.

The seminar was successful seen by the avid attendance and participation of the students and their positive feedback. The seminar was attended by over 100 students.

## **ML Hackathon - Weather Forecast Challenge:**

May 29, 2022

After a series of webinars on Machine Learning, MACS-DTU in collaboration with Bitgrit Inc. conducted a hackathon designed around the domain of Machine Learning and Data Science.

The goal of the competition was to develop a machine learning model to predict the weather of a place using the rubrics.

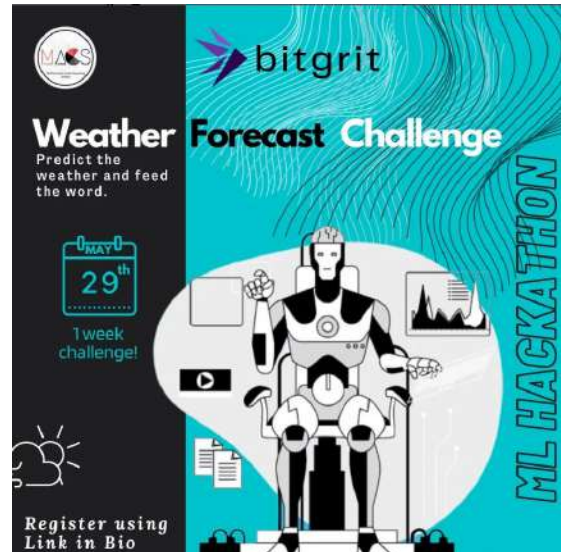

The participants were supposed to submit their solutions in the required format up to 8th June 2022. The participants were allowed to make multiple submissions in order to increase their chances of winning.

In order to ease out the process, a server was set up on discord as well apart from a WhatsApp group.

Database and resources were provided by Bitgrit in assistance with MACS. With the help of these, the participants were able to receive a prediction accuracy of about 89 per cent. This further prompted them to improve their model and achieve higher.

Abhijit Rathod secured the first position followed by Eresh Mittal.

The event was quite successful in terms of the number of registrations as well as the enthusiasm. It was a learning experience for participants as was evident from their feedback. More than 100 registrations from MACS DTU were recorded for the challenge.

## Conclusion

In the academic session 2021-22 we at MACS, gave our best hoping for the best. Despite the pandemic we tried involving the students and believed that learning must not stop.

*“ Learn as though you would never be able to master it; hold it as though you would be in fear of losing it “.*
