

# SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS – DTU CHAPTER

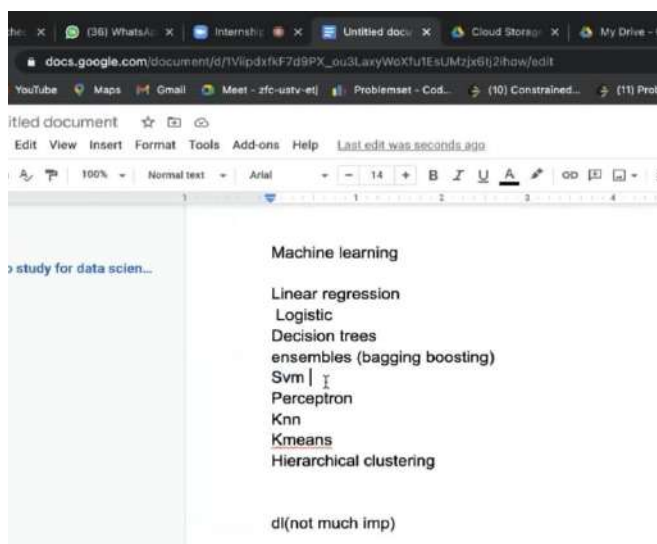

## FINAL REPORT 2021-22

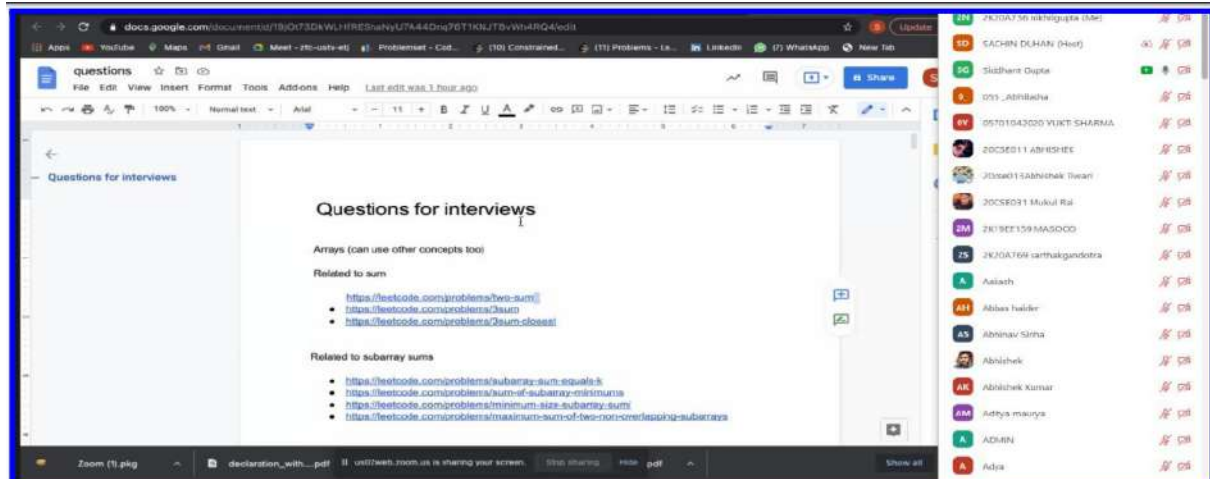

### EVENTS:

#### Internship and Placements in Data Sciences and Machine Learning (Webinar):

**Date:** 6th June , 2021

**About:**SIAM-DTU organized a webinar discussing the internship and placements in Data Sciences and Machine learning. The speaker of the webinar was “Siddhant Gupta” , A Software developer at Amazon. He discussed how one can step into the game of machine learning and what steps should he or she take to get started as a data scientist. Not only this , but he also guided students regarding Job interviews and programming language confusions and at last ended with answering all their questions which were put in the chat box. Conclusively, it was a super interactive and informational webinar.

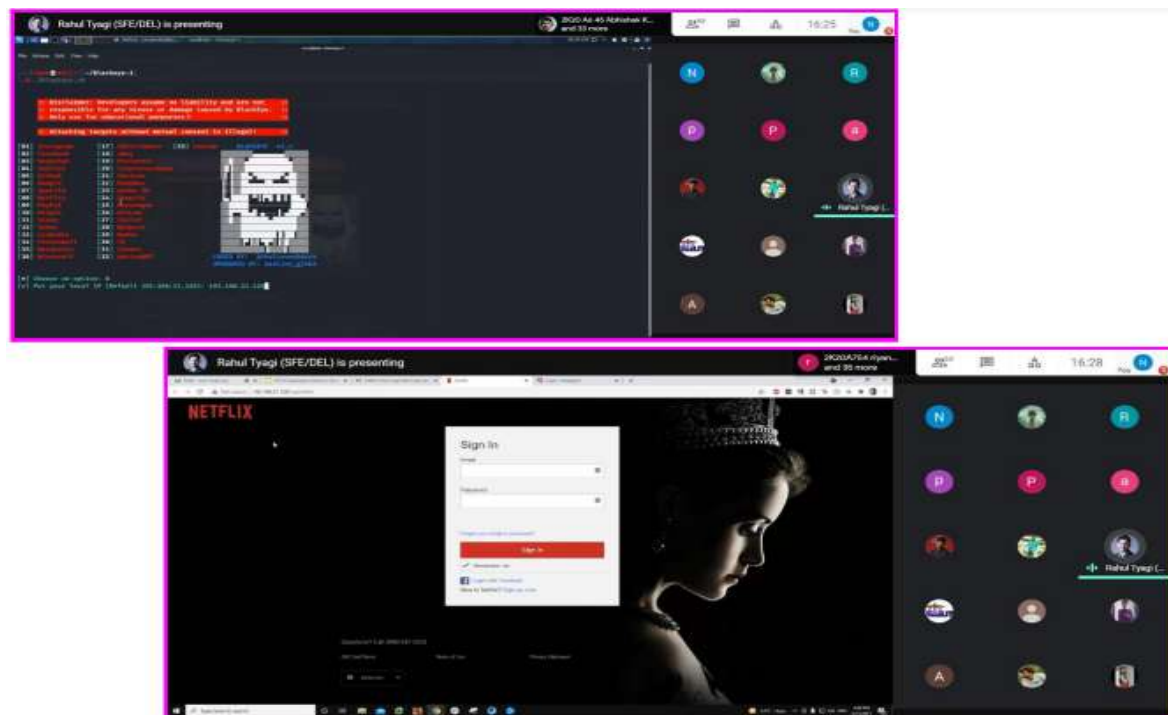

## Cyber Hygiene in Pandemic with Safe Security (Webinar)

**Date:** 13th June , 2021

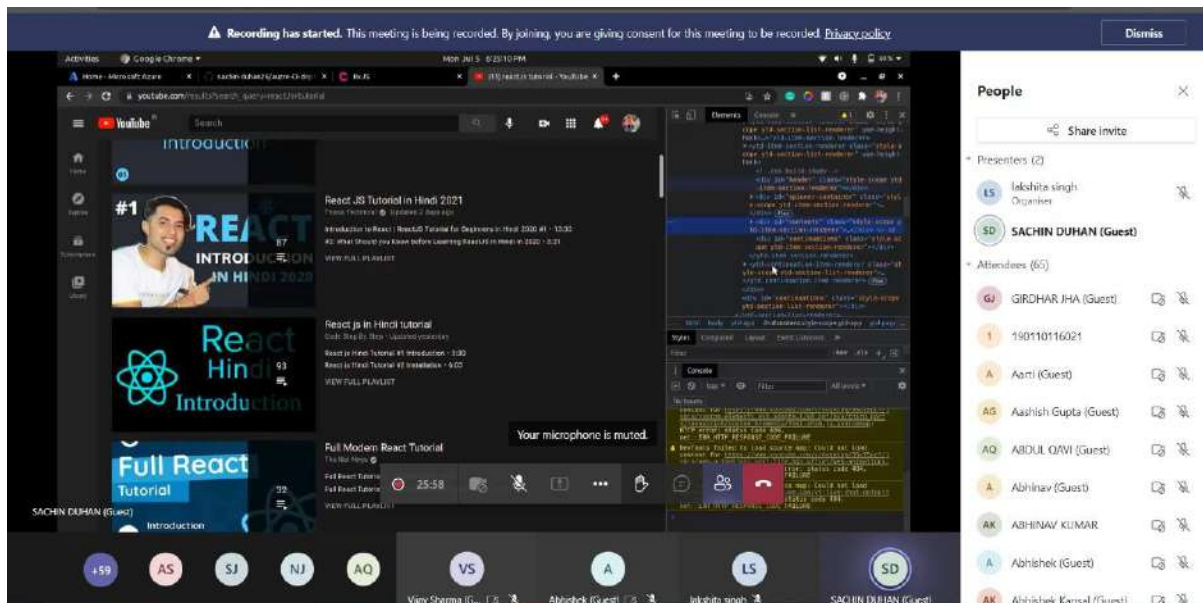

**About:** SIAM-DTU organized a webinar in collaboration with SAFE Security, on 13th June 2021, Sunday at 4PM. The main focus of the webinar was to create awareness about safe measures in the cyber world pertaining to increasing cybercrimes. The chief speaker for the webinar was Rahul Tyagi, one of the co-founders of SAFE Security. He demonstrated some of the cyber crime techniques and how to tackle them. And he discussed the safe disposal of vulnerable data in old devices.

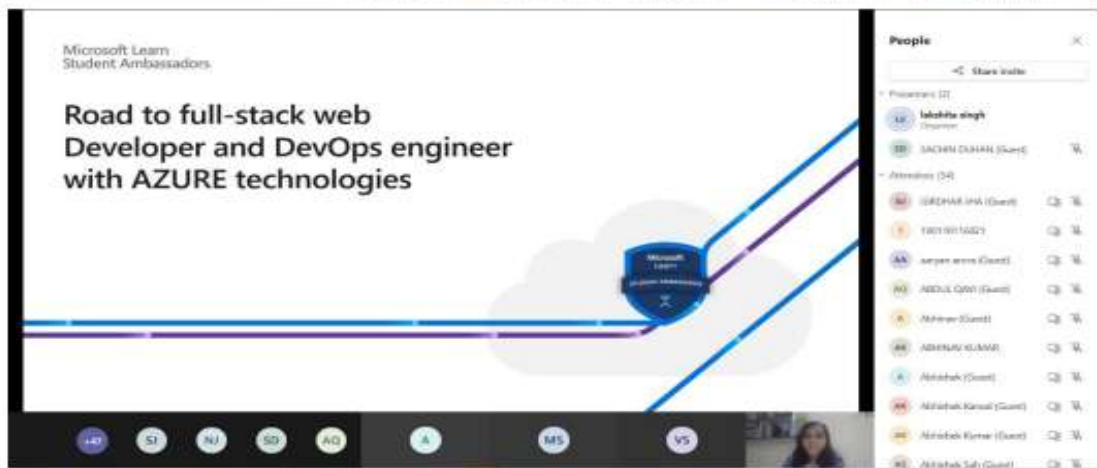

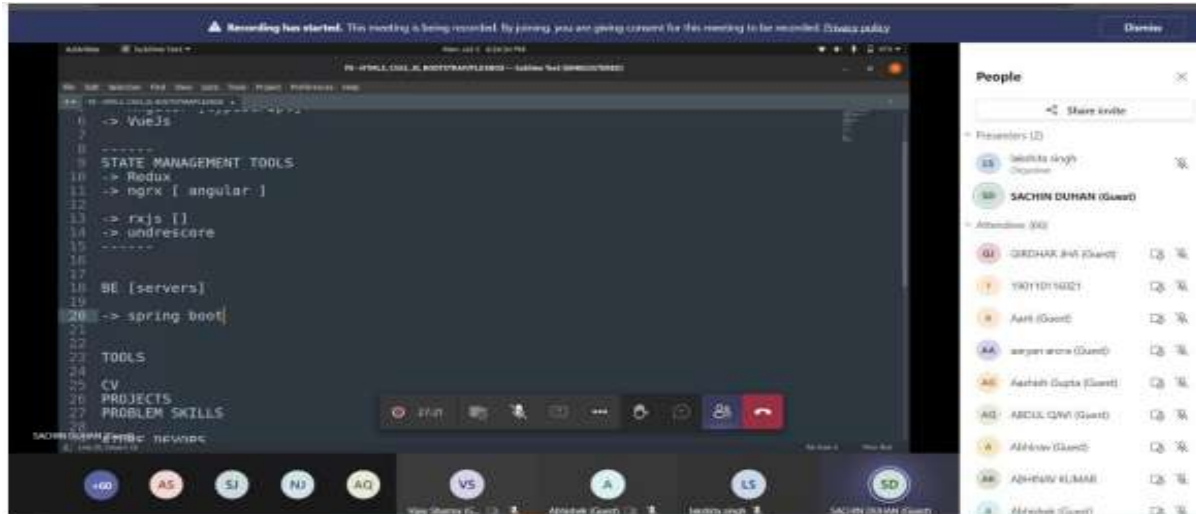

# Full-Stack Development & DevOps Engineer (Webinar)

**Date:** 5th July , 2021

**About:**SIAM-DTU in collaboration with Microsoft Student Ambassador organized a webinar focused on the path to Full-Stack development and DevOps engineer, on 5th July 2021, Monday at 6PM. The webinar was intended for web developers at any level guiding them on their journey to Full-stack developer and DevOps engineer. The chief speaker for the webinar was Sachin Duhan, software engineer at Chronicle and a DTU alumni. He started off by telling us about what does a full stack developer mean and what are their prerequisites and the challenges usually faced in the journey. He also discussed what is best to learn and how to learn them along with providing resources. And we concluded the webinar, with a small Q&A session.

## Viral Tweets Prediction Challenge (Hackathon)

**Date:** 20th - 27th June ,2021 (Later Extended to 6th July , 2021)

**About:** This was a **hackathon** conducted by SIAM-DTU in collaboration with ‘Bitgrit’, ‘MACS’ and ‘DataGateway’. The main challenge in this **hackathon** was to develop a machine learning model which will predict the virality level of a tweet based on numerous factors such as when it was tweeted, the media attached , the number of words and many other things. There were rewards for several positions. This ensured good participation in the challenge and added much more fun to it.

## Mathathon

**Date:** 17th - 19th Sep 2021

**About:** In this coding competition, we challenged the participants to solve some interesting competitive programming problems pertaining to mathematical concepts. The event had a wide reach as we had participants from different colleges like IIT Kharagpur, NSUT, DTU etc. At the end of the competition, the cash prizes were given to the top three winners.

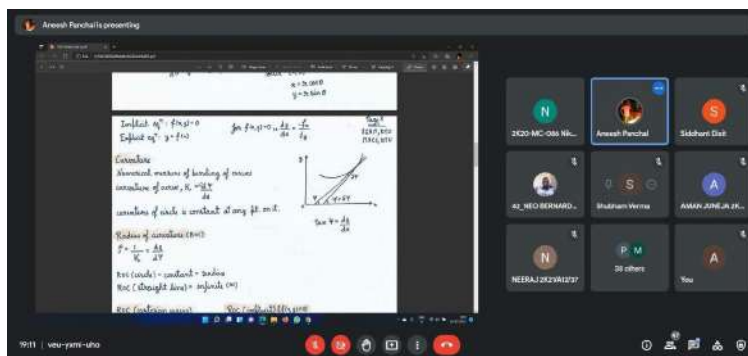

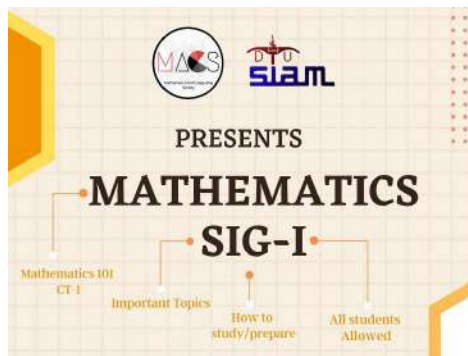

## Mathematics SIG

**Date:** 1-3rd February, 2022

**About:** Siam organized a Special Interest Group for 1st year students helping them to

prepare for their CTs and STs. SIG is an interactive doubt session, topic guidance and tips session by the seniors.

## **INVICTUS-22**

INVICTUS is the annual technical fest of DTU. It covers various events, mainly in the technical domain with other miscellaneous events. It was organized on 22nd and 23rd April 2022 to celebrate, showcase and encourage students of DTU and other colleges to participate in the one of its kind fest to be organized in Delhi Technological University. The fest Invictus'22 was a great success, and SIAM DTU would like to continue the great legacy left by our seniors of the society by organizing an even greater fest next year.

**Date: 22nd April 2022**

## **BITWARS:**

Bitwars was a competitive programming contest designed to test the competitive coding skills pertaining to mathematical concepts of the participants under pressured situations. It was an offline event with free registrations, every participant was provided with a functioning system and asked to code the given problems within a time frame of around 3 hours. The problems were purely based on concepts from Mathematics competitive programming. Top 10 winners were provided with merit certificates and top 3 were awarded with cash prizes.

### **TREASURE HUNT:**

This was a single-round offline event. The students could register for free and participate in the round. In each round the students were required to answer a certain question using estimation and assumptions.

This game had multiple sub-rounds and each was given a Clue for a next destination and the final sub-round would reach a treasure. The first three teams that found treasure in the least amount of time were awarded a Cash Prize. It was inside the DTU campus and clues for various destinations were given in chits. The clues were based on some mathematical problems. The rounds were designed to test the exhaustive thinking and reasoning powers of the participants

**Date: 23rd April 2022**

**GUESSESTIMATES:**

SIAM DTU organized a multi-level offline Guessestimates event. Every round was an elimination round. The participants were required to answer a specific question using estimation and logical assumptions. Each participant had to justify their estimates, assumptions and approach. The final round had 4-5 participants who competed for the cash prize. The rounds were designed to test the participants'

exhaustive thinking and reasoning powers. We understand Guesstimate is one of the most interesting questions asked in interviews; thus, with this event, we wanted to promote the understanding of such questions and tap our participants' critical and logical thinking.

### **FINANCIAL CRICKET:**

The event was a simple Cricket Auction that places Virtual Cricket Players in their respective teams, as chosen by the owners/participants of the teams themselves. The participants could register for free in a team of 2 to 4 participants. Every team bid for 6 virtual cricket players, including 2 Batsmen, 2 Bowlers, 1 All Rounder

and 1 Wicket Keeper using 50 crores of Virtual Money. The bids result in Gain or Loss for the participants in terms of Team Strength. The winning team consists of the best players according to the dataset which was provided at the time of the event. Since this event required some students to be players and auctioneers, this event was a fun-filled learning experience for the students. The auction was designed according to Game Theory.

### **E-Felicitation Ceremony:**

All winners of the events organized by SIAM-DTU were felicitated with certificates as well as their cash prizes by the Head of Department of Applied Mathematics, Prof. S. Sivaprasad Kumar as well as Associated Head, Prof. C. P. Singh in the presence of Dr. Vivek Kumar Aggarwal, Faculty Advisor of SIAM -DTU as well as Dr. Dinesh Udar, Co-Faculty Advisor of SIAM DTU on 6th May, 2022.
