Introduction:

The 6th distinguished lecture under the lecture series of the Dept. of Environmental Science and Engineering was organized on 20/07/2026 in Online mode. This event has been made possible under the patronage of the honourable Vice chancellor, DTU, Prof. Prateek Sharma and the guidance of Dr. Geeta Singh, Head of Department, Department of Environmental Science and Engineering at DTU.

About the speaker:

- Shri Ankit Sharma is currently working as an Assistant Engineer, Irrigation and Flood Control Department, Government of Delhi. He has completed his B.Tech. & M.Tech. in Civil Engineering.

- He is experienced in the planning, design, execution, supervision and maintenance of civil engineering based and water resources infrastructure projects.

Minute by minute progression of the programme:

- The programme began with honouring of the National Song “Vande Mataram” and National Anthem.
- This was followed by a brief introduction about the speaker as discussed in the section above.
- Dr. Geeta Singh, Head of Department, Department of Environmental Science and Engineering formally welcomed the speaker, along with the faculty members, PhD scholars, M.Tech and B.Tech students present for the occasion.
- The programme had an attendance of 41 members, including faculty members, PhD scholars, M.Tech and B.Tech students.
- The speaker Shri Ankit Sharma in his speech discussed about wastewater management practices in India, soak pits, their importance and improvements, drone coverage of canal systems in Delhi and involvement of public-private partnerships for implementation of soak pits at the community level.
- Upon conclusion of the talk, the speaker interacted with the students.
- The programme concluded with permission of the Head of the Department.
